

Policy:	RENEWABLE ENERGY	SP-POL-7
Division:	Planning	
Responsible Officer:	Director Planning	

1. INTRODUCTION

For several years Council has wrestled with the impacts of large scale electricity generating works on the rural landscape and communities throughout Yass Valley.

On 13 June 2018 Council held a Planning Forum on windfarms with speakers for and against the land use.

On 18 June 2018 a Councillor Workshop was held regarding Council's approach to wind farms and other renewable energy projects.

From the Planning Forum and Workshop, Council has developed its policy position on renewable energy projects.

2. POLICY OBJECTIVE

To outline Council's position in relation to renewable energy projects proposed in Yass Valley.

To act as a guide on the likely impacts and concerns of the local community that Council expects to be addressed in any planning documentation.

3. POLICY SCOPE

This policy applies to all renewable energy projects proposed in Yass Valley.

4. POLICY PROVISIONS

The following policy statement has been determined by Council:

Having considered the social, environmental, economic and strategic planning impacts on the Yass Valley communities and the cumulative impacts of the four approved wind farm sites Council is of the view that it has reached the maximum number of industrial turbines for the local government area.

While supportive of renewable energy in general, Council opposes in principle, further large scale wind turbine sites in Yass Valley.

Despite Council's position on wind farms it will consider any further proposed renewable energy projects submitted for assessment on its individual merits with the following matters (in addition to the Department of Planning & Environment's Wind Energy Guide or the like) to be taken into account:

- a) *The location being consistent with the Yass Valley Settlement Strategy*
- b) *The infrastructure (e.g. turbines, panels, substations) not being within view lines of villages and towns or areas of closer settlement*
- c) *The infrastructure not having an adverse impact on the amenity of other dwellings*
- d) *The impact of infrastructure (e.g. turbines, panels) on the rural landscape and tourism values of the Yass Valley*
- e) *Roads being used by any heavy vehicles being upgraded to the appropriate standard in Council's Roads Standards Policy prior to commencement of works on site*
- f) *A sharing the benefits scheme(s) with the host landowners, immediate neighbours and a Community Enhancement Fund (as per Council policy)*
 - i. *Noise impacts at adjoining dwellings being consistent with the applicable standards*

- ii. *The project to commence within 5 years of a Consent being issued and completed within 5 years of commencement*
- iii. *The impacts of the infrastructure (e.g. panels, turbines) on the heritage values of the site and Yass Valley*
- iv. *The economic and social impacts on local communities and Yass Valley*
- v. *Any community and Rural Fire Service concerns in relation to the bushfire risks and any impediments to firefighting operations*

5. REVIEW

This policy will be reviewed once each term of Council or as needed in response to any change of circumstance including changes in legislation.

6. LEGISLATIVE & LEGAL FRAMEWORK

This policy is to be read in conjunction with the following:

- *Local Government Act 1993*
- *Environmental Planning & Assessment Act 1979*

Council employees shall refrain from personal activities that would conflict with proper execution and management of Council's Renewable Energy *Policy*. Council's Code of Conduct provides guidance for recognising and disclosing any conflicts of interest.

7. DEFINITIONS

Under the *Yass Valley Local Environmental Plan 2013*:

electricity generating works means a building or place used for the purpose of making or generating electricity

8. RESPONSIBILITIES

The following Council Officers are responsible for the implementation and adherence to this policy:

- Director Planning
- Manager Development Control
- Manager Strategic Planning
- Planning Staff

Development assessment staff are required to take into account the provisions of this policy in relation to any Development Applications.
